ABOUT ME

Full-Stack TypeScript Developer (React, Node.js, NestJS) with **2+ years of experience** building scalable **web applications**, **REST APIs**, and **real-time features**. Strong in **frontend architecture**, **backend services**, and **third-party API integrations**.

SKILLS

Frontend: React, TypeScript, Tailwind, NextJS, UI Libraries (MUI, Shadcn), Forms (React Hook Form, Zod, Formik, YUP) Framer motion...

Backend: Node.js, NestJS, MongoDB, REST APIs, SSE

Tools: Git, Vite, Recharts, API Integrations

Languages: Conversational Proficiency in French, English; Mother tongue in Arabic

EXPERIENCE

Momentum Marketing Group / Martechlabs

Tunisia, Tunis

Full-Stack Developer

May 2025 – Present

Technologies: TypeScript, React, Node.js, NestJS, MongoDB, REST APIs, SSE, OpenAI API, Google Ads API

- Contributed to the architecture of **AI-powered, multi-tenant content and SEO platform** serving teams, agencies, and businesses.
- Integrated **ActiveCampaign** APIs for user creation, automation, tagging, and list management
- Helped deliver **Topical Map**, combining ML-based semantic clustering, seasonality detection, and live competitor data.
- Developed **SEO intelligence features** include real-time SERP analysis, keyword research, and competitor benchmarking.
- Built **scalable AI generation pipelines** integrating OpenAI and Anthropic with prompt templating and model switching.
- Implemented **real-time collaboration and async updates** using Socket.IO and Server-Sent Events (SSE)

Front-End Developer

June 2022 – April 2025

Technologies: Typescript, React Vite, Zustand, Tailwind, Shadcn, Formik, Yup, React-Hot-Toast, Recharts

- Developed a complex React application for AI-powered content creation and SEO
- Built reusable UI components and design system with Tailwind, Shadcn, and Radix
- Implemented rich text editing, dashboards, charts, and real-time UI updates
- Integrated **real-time features** using Socket.IO, enabling live presence indicators, notifications, and collaborative workflows.

PROJECTS

Personal Project - HR & Company Management Web Platform

Currently

- Designed and developed a **role-based HR management web application** (Admin / HR / Employee).
- Built employee lifecycle features: **onboarding, offboarding, leave management, internal requests, and document generation**.
- Developed **approval workflows** with notifications and email alerts (leave requests, HR actions).

Personal Project - The Pixel Wizard Portfolio (Interactive Portfolio)

December 2025

- Designed and developed an interactive portfolio featuring animated UI, pixel-art visuals, and themed storytelling.
- Built reusable, accessible components using **React, Tailwind CSS, and TypeScript**.
- Implemented advanced animations and page transitions using **Framer Motion**.

Tools Renting Platform - Tooly | React, NodeJS, Express, MongoDB

March 2021 – June 2021

- Designed all application interfaces from sketching to final prototype following UX/UI principles.
- Converted UI/UX design wireframes into high-quality, responsive code.

EDUCATION

ESPRIT

Tunisia, Tunis

COMPUTER ENGINEERING DEGREE – WEB DEVELOPMENT

2019 – 2023

ACTIVITY

AIIESEC / Local Committee Vice President, Head of Outgoing Global Volunteer

Jan 2019 – Feb 2020

- Led a team of 19+ across the Outgoing Global Volunteer department, managing operations, setting ambitious targets, and ensuring their achievement.
- Collaborated with the executive board to implement organizational vision and drive operational growth.
